Call for Papers

Editor-in-chief:

Dr. Martin Bohner,

106 Rolla Building

Department of Mathematics and Statistics

Missouri University of Science and Technology

Rolla, Missouri 65409-0020, USA

Dear Colleagues,

We would like to invite you to submit manuscripts of your original papers, for possible publication in **Advances in Dynamical Systems and Applications (ADSA)**, which publishes research articles and reviews within the whole field of Dynamical Systems. All submissions should be made electronically to the Editor-in-chief through: (EIC: submit@rippublication.com). More information on the journal and the publishing process can be obtained at: www.rippublication.com/adsa.htm

The Advances in Dynamical Systems and Applications (ADSA) is an international research journal, which publishes top-level work from all areas of differential, difference, dynamic equations, functional differential equations, and their applications. Areas and subareas of interest include (but are not limited to) ordinary differential equations, partial differential equations, spectral theory of differential operators, integral and integral differential equations, stochastic differential equations, difference equations, and their applications in control theory, dynamic equations on time scales, mathematical control theory, mathematical modelling, shell theory, informatics and oscillation theory, topological dynamics, and related topics.

Submission: Authors are requested to submit their papers electronically to submit@rippublication.com with mention journal title (**ADSA**) in subject line.

Author benefits:

The benefits of publishing in **Advances in Dynamical Systems and Applications (ADSA)** includes:

- **Fast publication times:** your paper will appear online as soon as it is ready, in advance of print version (review time of paper is 3-4 weeks)
- Excellent editorial standards
- Access free on-line issue of journal for one year
- A rigorous, fast and constructive peer review process
- All abstracts and full text available free on-line to all main universities/institutions worldwide ensures promotion to the widest possible audience

We shall be glad to receive your technical contributions at your earliest convenience. Please publicize this journal amongst your colleagues for possible contribution and subscription.

With kind regards,

Dr. Martin Bohner, Editor-in-chief
