United States of Israel-Palestine With Separation of State and Religion as in the USA.

Israelis and Palestinians will gain far more than what they have been fighting for, will lose nothing, including their religious freedom and security.

Constitutional protection of rights of Palestinians EQUAL to rights of Israelis.

Instead of forceful occupation by the Israelis, real estate owned by Palestinians can be advertised and negotiated just as in any real estate transaction in USA, legal documents prepared and filed at court houses.

Anyone who violates such Constitutional rights, be they Palestinians or Israelis, will be prosecuted and punished accordingly.

To keep their equal rights, Palestinians will not respond to calls by Isis and Hesbolla.

To keep their equal rights, Israelis will not support the destruction of Lebanon.

Most Israelis and Palestinians want to live in peace with each other.

Worship at disputed sites like Wailing Wall and Dome of Rock can be time-shared.

Booming trade and commerce will raise the standard of living for all.

Strait of Hormuz will reopen, restore oil supplies to the time before Trump attacked Iran.

And stop Trump's destruction of Iran, Cuba and precipitation of worldwide crises.

Please note: Palestinians had nothing to do with Holocaust perpetrated in Europe by Nazis.

THE KASHMIR PROBLEM.

Separation of state and religion in all of Kashmir is not only possible, it is necessary for the survival of both India and Pakistan.

It is impossible to stop ballistic missiles which both countries have, resulting in devastation of entire cities and entire populations.

The high risk of escalation to nuclear destruction of both is real, not hypothetical.

Mahatma Gandhi vehemently opposed partition on the basis of religion but failed.
Let us redeem Bapuji with lasting peace with justice in India, Pakistan and
Bangladesh.

A fitting tribute to Gandhiji.

Please advocate and disseminate worldwide.
